

### **4-1.3 DECISION NO. D-10**

#### **VALUE ENGINEERING GUIDELINES**

##### **Issue:**

Guidelines are needed for the implementation and application of Value Engineering on all Indian Health Service (IHS) health care facilities including design and construction.

##### **Decision:**

The draft technical handbook chapter , "Value Engineering," was introduced and approved subject to editorial revision.

These guidelines will be implemented effective immediately.

##### **Reference:**

Copies of the draft chapter can be obtained from the Office of Environmental Health and Engineering, Division of Facilities Planning and Construction. This document will be issued as Chapter 23-3 - Value Engineering, Part 23, Volume III, of the Technical Handbook for Environmental Health and Engineering.

Adopted by HFAC on January 5, 1994.

Gary K. Radtke, P.E.  
Chairman, HFAC
